To Baltimore Monthly Meeting for the Eastern and Western Districts.

The Committee appointed to endeavour to carry into effect the views of friends relative to the very interesting and important subject of the Education of our youth, by the establishment of a school under the direction of the Monthly Meeting. Report that the subject has repeatedly claimed and obtained their serious and deliberate consideration and it is with regret that they find themselves under the necessity of stating that from the state of things now existing in the Community and from the peculiar

situation of the members of this Monthly Meeting - way has not yet opened to justify the committee in taking any decisive step on the subject they feel very unwilling to abandon the object of their appointment and are willing to hope that a more favourable prospect may yet occur for attaining an object so very desirable to friends.
